

What to Do if You Think You Have Been Scammed

Being scammed is a scary and dangerous risk, but with these steps, you can make it less easy to have your information compromised.

1. Stop all communication with the scammer
2. Contact your bank immediately
3. Change passwords
4. Tell a trusted family member
5. Report the scam

In the United States, to report scams, file an official report through [ReportFraud.ftc.gov](https://reportfraud.ftc.gov) to alert the Federal Trade Commission. For online scams that are enabled through the internet, submit your evidence directly to the FBI's [Internet Crime Complaint Center \(IC3\)](https://www.fbi.gov/interact/ic3).

For more information about reporting scams, check out our Reporting Resources page in this toolkit.
