

Financial Safety Planning Worksheet

This worksheet helps you organize important financial information so you can easily monitor your financial accounts and detect fraud.

Financial Institutions

A financial institution is a company or organization that acts as an intermediary between savers and borrowers. Examples of financial institutions can include commercial banks, credit unions, pension funds, or insurance companies.

Create a table that lists all the financial institutions that you use. An example table has been added for reference.

Institution	Type of Account	Customer Service Contact
Credit Card Company	Credit Card	(123) 456-7890 example@gmail.com
Community Bank	Checking Account	(123) 456-7890 example@gmail.com
Credit Union	Savings Account	(123) 456-7890 example@gmail.com
Financial Services Company	Investment Account	(123) 456-7890 example@gmail.com

Now, create your table for financial institutions.

Institution	Type of Account	Customer Service Contact

Automatic Payments

List any bills that are automatically paid each month. Feel free to take advantage of the “Other” categories to add additional automatic payments. Be sure to look through all subscriptions to determine automatic payments.

Payment	Amount Per Month	Monthly Due Date
Mortgage/Rent		
Utilities		
Internet		
Cell Phone		
Insurance		
Other		
Other		
Other
