

Strong Password Planning Worksheet

Use this worksheet to identify important online accounts and make sure each one has a strong and unique password.

For your security, do not write your actual passwords on this worksheet.

My Important Online Accounts

Account	Password Updated?	Last Updated	Two-Factor Authentication Enabled?
Email	☐ Yes ☐ No		☐ Yes ☐ No
Bank	☐ Yes ☐ No		☐ Yes ☐ No
Credit Card	☐ Yes ☐ No		☐ Yes ☐ No
Medicare	☐ Yes ☐ No		☐ Yes ☐ No
Social Security	☐ Yes ☐ No		☐ Yes ☐ No
Shopping Websites	☐ Yes ☐ No		☐ Yes ☐ No
Social Media	☐ Yes ☐ No		☐ Yes ☐ No
Other	☐ Yes ☐ No		☐ Yes ☐ No

Password Health Check

Review your passwords and check all that apply.

- ☐ I use a different password for each important account.
- ☐ My passwords are more than 12 characters long.
- ☐ My passwords include a mix of uppercase and lowercase letters, numbers, as well as symbols.
- ☐ I do not use my name, birthdays, or any common words in my password.
- ☐ I have changed all my passwords that have previously been compromised.
- ☐ I do not share my passwords with others.

It is also beneficial to remove any unused online accounts so that you do not have to keep up with those passwords.

Password Reminder

If you create a new password, ask yourself these four questions:

- ☐ Is it a unique password?
- ☐ Is it difficult to guess?
- ☐ Have I used it anywhere else?
- ☐ Have I enabled two-factor authentication, if available?

Remember, never share your passwords through a phone call, email, text message, or any other form of digital communication. A legitimate organization will never ask for your password.
